

Selena Wang

Network Science, Brain Imaging, Bayesian Analysis, Psychometrics.

Updated: June 25, 2026

Email: selewang@iu.edu

GitHub: github.com/selenashuowang

Website: selenashuowang.github.io/cv

Major Research Interests

Methodology

- Neuroimaging, connectome-behavior linking
- Imaging genetics, imaging-genetics linking
- Social network analysis, network neuroscience
- High dimensional data analysis, clustering
- Psychometrics, item response theory, latent factor models
- Data integration
- Statistical machine learning, statistical philosophy

Application

- Childhood psychopathology and disorders
- Neurodegeneration through aging and Alzheimer's disease
- Social factor of health outcomes

Appointments

Indiana University

Assistant Professor, Department of Biostatistics and Health Data Science

Faculty Member, Indiana Alzheimer's Disease Research Center

Faculty Member, Stark Neuroscience Institute

Faculty Affiliate, Center for Computational Biology and Bioinformatics

Faculty Affiliate, Center for Complex Networks and Systems Research

Current

Yale University

Postdoctoral Associate, Department of Biostatistics

2024

Education

The Ohio State University

Ph.D. in Quantitative Psychology, Department of Psychology

2022

– Thesis: "Modeling dependence between a network and item responses."

M.S. in Statistics

– Thesis: "Joint analysis of social and item response networks with latent space models."

M.A. in Quantitative Psychology

– Thesis: "When reliability does not signal reliable detection of experimental effects."

University of Minnesota, Twin Cities

2017

B.S. in Psychology, Summa cum Laude with Highest Distinction

Peer-reviewed Publications

*indicates equal contribution. †indicates publication as a mentor/senior author. ‡indicates student/mentee under mentorship.

Methodology/Application

1. **Wang, S.**, Zhang, X., Liu, Y., Xu, W., Tian, X., & Zhao, Y. (2026). Latent space-based network analysis for brain–behavior linking in neuroimaging. *Nature Methods*, 23(1), 225–235. ([arXiv](#), [paper](#))
2. **Wang, S.**, T. M., Sweet, & Paul, S. (2026). The co-varying ties between networks and item responses via latent variables. *Psychometrika*, 1–40. ([paper](#))
3. Xu, W., **Wang, S.**, Gao, S., Tian, X., Tan, C., Shen, X., ... Zhao, Y. (2025). Supervised brain node and network construction under voxel-level functional imaging. *Imaging Neuroscience*, 3, IMAG–a. ([arXiv](#), [paper](#))
4. Powla, P., Jayaprakash, T., Cornelison, C., Sweet, T., Shen, L., Gao, S., ... †**Wang, S.** (2025). Sex differences in the diffusion of tau neurofibrillary tangles across functional brain networks (abstract). *Alzheimer's & Dementia*, 21, e100019. ([abstract](#))
5. Jayaprakash, T., Cornelison, C., Powla, P., Zhang, L., Fredericks, C. A., Saykin, A. J., & †**Wang, S.** (2025). Deep learning framework for characterizing tau-pet spatial heterogeneity along ad spectrum: A self-supervised approach (abstract). *Alzheimer's & Dementia*, 21, e109949. ([abstract](#))

Teaching

- **Guest instructor of the course** at Indiana University Fall 2025
Introduction to Quantitative Biomedical Sciences (Q581)
 - Developed course materials
 - Delivered lecture
- **Lead instructor of the course** at Indiana University Fall 2025
Biostatistics for Public Health I (PBHLP 551)
 - Developed syllabus and materials
 - Oversaw student learning of statistical concepts
 - Provided hands on supporting with coding
- **Lead instructor of the course** at the Ohio State University (SEI available) Fall 2020, Spring 2021
Introduction to Psychology (PSYCH 1100)
 - Lead online courses during pandemic
 - Develop syllabus
 - Design course assignments
 - Deliver live lectures
- **Teaching Assistant** at the Ohio State University Fall 2018 –Spring 2020
Quantitative and Statistical Methods in Psychology (PSYCH 3321)
Data Analysis in Psychology (PSYCH 2220)
 - Design and grade course assignments
 - Quest lecture at weekly lab and review sessions
 - Tutor students and hold office hours

Softwares

- **JNIRM:** An R package estimating the joint network and item response model.
Link: <https://github.com/selenashuowang/JNIRM.git>
- **jlsM:** An R package estimating joint latent space models for social networks and multivariate attributes using a fast inference approach.
Link: <https://github.com/selenashuowang/jlsM.git>
- **ABCModel:** An R package estimating the attributes-informed brain connectivity model.
Link: <https://github.com/selenashuowang/ABCModel.git>
- **LatentSNA:** An R package estimating the latent variables-assisted statistical network analysis model.
Link: <https://github.com/selenashuowang/LatentSNA.git>

Honours, Awards and fellowships

- Research Career Institute in the Mental Health of Aging (CIMA) scholar 2026
- William H. Gates Sr. Fellow, Alzheimer's Disease Data Initiative 2025-2027
- REC Scholar, Indiana Alzheimer's Disease Research Center 2025
- DETxDigital Harbor Fellowship in Computational Psychometrics, Duolingo English Test 2021
- Finalist, Student Paper Competition, IISA 2021
 - Project: Joint latent space model for social networks with high-dimensional multivariate attributes.
- Ray Travel Award (for Service and Scholarship), Graduate Student Council, Ohio State 2020
- Graduate Student Conference Presentation Award, Ohio State 2018, 2019
- The International Meeting of the Psychometric Society Travel Award 2019
 - Project: The integration of social network analysis with psychometric models.
- Algorithms for Threat Detection (ATD) Travel Award 2018
 - Project: Joint Analysis of Social and Item Response Networks with Latent Space Models.
- College of Arts and Sciences Division of Social and Behavioral Sciences (SBS) Fellowship, Ohio State 2018
- Distinguished University Fellowship, Ohio State 2017, 2022
- Donald G. Paterson Award, Minnesota Psychological Association 2017
- Innovative Community Building Grants Award, University of Minnesota 2016
- Undergraduate Research Opportunities Program Grant, University of Minnesota 2016
 - Project: Gender and racial measurement bias in vocational interest assessment.
- Global Excellence Scholarship, University of Minnesota (4-years of in-state tuition) 2013

Presentations

*indicates equal contribution. †indicates publication as a mentor/senior author. indicates student/mentee presenter.

Invited Presentations

1. **S. Wang**, “Modulating Impact of Functional Connectomes on AD Pathology”, *20th International Joint Conference on Computational and Financial Econometrics (CFE) and Computational and Methodological Statistics*, December, 2026.
2. **S. Wang**, “Improve power of brain-behavior studies using LatentSNA”, *Organization for Human Brain Mapping 2026 Annual Meeting*, June, 2026.
3. Krishnendu Chandra and †**S. Wang**, “Mediating Impact of Functional Connectomes on AD Pathology via the Functional Graphical Variational Autoencoder (FUNGVA) Model”, Math Department, *Indiana University*, Indianapolis, May, 2026.
4. T. Jayaprakash, Luling Atlan and †**S. Wang**, “Alzheimer's Disease Subtype Identification from Spatial Tau-PET Heterogeneity Using Self-Supervised Deep Learning”, *Statistical Methods in Imaging*, June, 2026.
5. **S. Wang**, “Brain Resilience in Aging”, *Research Career Institute in the Mental Health of Aging Conference*, scholar presentation, March, 2026.
6. **S. Wang**, “Implementing Network Science in Generative Statistical Processes”, *The American Statistical Association (ASA) Statistics and Data Science in Aging (SDSA) Interest Group*, Virtual Seminar, February, 2026.
7. **S. Wang**, “New developments in implementing network science in connectome research”, *Indiana University, Center for Computational Biology and Bioinformatics Seminar*, December, 2025.

8. **S. Wang**, “Neuroimaging connectivity analysis needs network science for brain-behavior linking”, *University of Louisville, Department of Bioinformatics and Biostatistics Seminar, October, 2025*.
9. **S. Wang**, “New developments in implementing network science in connectome research”, *19th International Joint Conference on Computational and Financial Econometrics (CFE) and Computational and Methodological Statistics, December, 2025*.
10. **S. Wang**, “Sex differences in functional connectomes associated with Alzheimer’s disease (Poster)”, *2025 Spring ADRC Meeting, May, 2025*.
11. **S. Wang**, “Joint network and psychometric models”, *University of California, Los Angeles, Quantitative Psychology brown bag seminar, March, 2025*.
12. **S. Wang**, “Current projects in network-based connectome research”, *Indiana Public Health Informatics, March, 2025*.
13. **S. Wang**, “Detect imaging biomarkers with statistical network analysis”, *Center for Complex Networks and Systems Research, March, 2025*.
14. **S. Wang**, “Detect imaging biomarkers with statistical network analysis”, *Adolescent Behavioral Health Research Program 2025, February, 2025*.
15. **S. Wang**, “Sex-specific topological structure associated with dementia via latent space estimation”, *2025 ICSA Applied Statistics Symposium 2025, June, 2025*.
16. **S. Wang**, “Heritability and genetic contribution analysis of the co-development of FC and SC during childhood”, *Eastern North American Region Spring Meeting 2025, March, 2025*.
17. **S. Wang**, “Linking social networks with behavior outcomes”, *Indiana University Biostatistics and Health Data Science Departmental Seminar, November, 2024*.
18. **S. Wang**, Y. Wang, F. Xu, C. Fredericks, L. Shen and Y. Zhao, “Sex-specific topological structure associated with dementia via latent space estimation”, *18th International Joint Conference on Computational and Financial Econometrics (CFE) and Computational and Methodological Statistics, December, 2024*.
19. **S. Wang**, “Neuroimaging connectivity analysis needs network science for brain-behavior linking”, *Stark Neurosciences Research Institute, October, 2024*.
20. **S. Wang**, Y. Wang, F. Xu, C. Fredericks, L. Shen and Y. Zhao, “Sex-specific topological structure associated with dementia via latent space estimation”, *Statistical Methods in Imaging Conference 2024, May, 2024*.
21. **S. Wang**, “Detect imaging biomarkers with statistical network analysis”, *Statistics in Imaging Virtual Working Group webinar, November, 2024*.
22. **S. Wang**, “Detect imaging biomarkers with statistical network analysis.”, *Purdue University CONNplexity Lab, August, 2024*.
23. **S. Wang**, “Detect imaging biomarkers with statistical network analysis”, *Purdue and Indiana University Joint Seminar, October, 2024*.
24. **S. Wang**, “Inference-based statistical network analysis uncovers star-like brain functional architectures for internalizing psychopathology in children.”, *Center for Computational Biology and Bioinformatics, October, 2024*.
25. **S. Wang**, “Detect imaging biomarkers with statistical network analysis”, *University of Illinois Urbana-Champaign, Urbana-Champaign, January, 2024*.
26. **S. Wang**, “Detect imaging biomarkers with statistical network analysis”, *Rush University, Chicago, January, 2024*.
27. **S. Wang**, “Detect imaging biomarkers with statistical network analysis”, *Indiana University, Indianapolis, January, 2024*.
28. **S. Wang**, “Detect imaging biomarkers with statistical network analysis”, *University of Minnesota, Online, December, 2023*.

29. **S. Wang**, “Detect imaging biomarkers with statistical network analysis”, *University of Utah, Online, November, 2023*.
30. **S. Wang**, “Detect imaging biomarkers with statistical network analysis”, *St Jude Children’s Research Hospital, Online, November, 2023*.
31. **S. Wang**, “Detect imaging biomarkers with statistical network analysis”, *Georgia Tech University, Atlanta, November, 2023*.
32. **S. Wang**, “The integration of psychometric and network models for behavior and neuroscience research”, *University of Maryland, College Park, April, 2023*.
33. **S. Wang**, “The integration of psychometric and network models for educational research”, *Michigan State University, February, 2023*.
34. **S. Wang**, “The integration of psychometric and network models for educational research”, *University of Nebraska, Lincoln, January, 2023*.
35. **S. Wang**, J.R. Lockwood, and Y. Attali, “Fitting psychometric models to digital-first assessment”, *Duolingo English Test, August, 2021*.
36. **S. Wang**, S. Paul, and P. De Boeck, “Joint latent space model for social networks with high-dimensional multivariate attributes.”, *International Indian Statistical Association Conference, May, 2021*.
37. **S. Wang**, S. Paul, J. Logan, and P. De Boeck, “Joint modeling of network and psychometric data”, *International Meeting of Psychometric Society, July, 2019*.

National & Regional Conferences

38. A. Sharma, C. Cornelison, L. Atlan, K. Chandra, Q. Wen, K. Nho, A. Saykin, Y. Wu and †**S. Wang**, “Proteomics signature of whole-brain microstructural integrity of white matter using LatentSNA (poster)”, *The Alzheimer’s Association International Conference, July, 2026*.
39. C. Cornelison, A. Sharma, L. Atlan, K. Nho, A. Saykin and †**S. Wang**, “Plasma proteomics biomarkers that differentiate asymptomatic from symptomatic Alzheimer’s disease (poster)”, *The Alzheimer’s Association International Conference, July, 2026. (accepted, not attended)*
40. C. Osei, S. Gao, A. Saykin and †**S. Wang**, “A Psychometric Evaluation of the Cognitive Change Index in the Indiana Memory and Aging Cohort (poster)”, *The Alzheimer’s Association International Conference, July, 2026*.
41. H. Lee, T. Sweet and **S. Wang**, “A Multilevel Modeling Approach to Network Diffusion in Alzheimer’s Disease (poster)”, *The Alzheimer’s Association International Conference, July, 2026*.
42. H. Lee, T. Sweet and **S. Wang**, “A Multilevel Modeling Approach to Network Diffusion in Alzheimer’s Disease”, *The International Meeting of the Psychometric Society, August, 2026*.
43. C. Cornelison, A. Sharma, L. Atlan, K. Nho, A. Saykin, and †**S. Wang**, “Plasma proteomics biomarkers that differentiate asymptomatic from symptomatic Alzheimer’s disease”, *National Human Genome Research Institute Research Training Conference, 2026*.
44. Z. Luling and †**S. Wang**, “Bayesian latent space co-evolution model to explain AD progression (poster)”, *Eastern North American Region (ENAR) of the International Biometric Society 2026 Spring Meeting, March, 2026*.
45. T. Jayaprakash and †**S. Wang**, “Alzheimer’s Disease Subtype Identification from Spatial Tau-PET Heterogeneity Using Self-Supervised Deep Learning (poster)”, *Eastern North American Region (ENAR) of the International Biometric Society 2026 Spring Meeting, March, 2026*.
46. C. Cornelison, K. Chandra, T. Q. Wen, Jayaprakash, A. Saykin, Y. Wu, and †**S. Wang**, “Sex differences in structural connectivity-based AD pathology in the Indiana Memory and Aging cohort (poster)”, *Eastern North American Region (ENAR) of the International Biometric Society 2026 Spring Meeting, March, 2026*.

47. T. Jayaprakash, C. Cornelison, P. Powla, L. Zhang, C. Fredericks, A. Saykin, and †**S. Wang**, “Deep learning framework for characterizing tau-PET spatial heterogeneity along AD progression : A Self-supervised Approach (poster)”, *The Alzheimer’s Association International Conference, July, 2025*.
48. P. Powla, T. Jayaprakash, C. Cornelison, T. Sweet, L. Shen, S. Gao, M. Yu, Y.-C. Wu, Y. Zhao, A. J. Saykin and †**S. Wang**, “Sex Differences in the Diffusion of Tau Neurofibrillary Tangles Across Functional Brain Networks (poster)”, *The Alzheimer’s Association International Conference, July, 2025. (accepted, not attended)*
49. **S. Wang**, “Foundational generative embedding models for neuromolecular networks in Alzheimer’s Disease (poster)”, *The Alzheimer’s Association International Conference, July, 2025*.
50. C. Cornelison, P. Powla, T. Jayaprakash, A. Saykin, Y. Wu, and †**S. Wang**, “Sex differences in structural connectivity-based AD pathology in the Indiana Memory and Aging cohort (poster)”, *The Alzheimer’s Association International Conference, July, 2025*.
51. **S. Wang**, Y. Wang, F. Xu, C. Fredericks, L. Shen and Y. Zhao, “Sex-specific topological structure associated with dementia via latent space estimation (poster)”, *The Alzheimer’s Association International Conference, August, 2024*.
52. **S. Wang**, Y. Liu, W. Xu, X. Tian and Y. Zhao, “Inference-based statistical network analysis uncovers star-like brain functional architectures for internalizing psychopathology in children”, *Eastern North American Region Spring Meeting 2024, March, 2024*.
53. **S. Wang**, Zhang, X., Y. Liu, W. Xu, X. Tian and Y. Zhao, “Unveiling star-Like brain networks in adolescent internalizing psychopathology: an inference-based statistical approach (Poster)”, *Neuroscience Track Brunch and Poster Sessions, February, 2024*.
54. **S. Wang**, Y. Wang, F. Xu, L. Shen and Y. Zhao, “Establishing group-level brain structural connectivity incorporating anatomical knowledge under latent space modeling”, *Statistical Methods in Imaging Conference 2023, May, 2023*.
55. W. Qiu, **S. Wang**, X. Li, Y. Zhao, R. Ying, “Understanding interactions of ROIs via learnable hyperedges (Poster)”, *Organization for Human Brain Mapping, July, 2023*.
56. **S. Wang**, Y. Wang, F. Xu, L. Shen and Y. Zhao, “Identifying gender based neuromarkers of Alzheimer’s disease using ABC network model” (Poster), *Organization for Human Brain Mapping, July, 2023*.
57. P. De Boeck **S. Wang** and S. Cho, “Binary time series for eye fixations: the quality of parameter estimates”, *National Council on Measurement in Education Conference, April, 2023*.
58. P. De Boeck and **S. Wang**, “Pervasive measurement bias”, *Quantitative Methodology Center 2022 Conference, June, 2022*.
59. **S. Wang**, J.R. Lockwood, and Y. Attali, “Fitting psychometric models to digital-first assessment”, *National Council on Measurement in Education, April, 2022*.
60. **S. Wang**, S. Paul, and P. De Boeck, “Modeling classroom outcome with network analysis”, *National Council on Measurement in Education, April, 2022, cancelled*.
61. **S. Wang**, S. Paul, and P. De Boeck, “Joint latent space model for social networks with high-dimensional multivariate attributes”, *International Meeting of Psychometric Society, July, 2021*.
62. **S. Wang**, S. Paul, J. Logan, and P. De Boeck, “Joint modeling with network analysis and psychometrics”, *Geometry and Topology meet Data Analysis and Machine Learning, May, 2019*.
63. **S. Wang**, S. Paul, J. Logan, P. De Boeck, “Joint analysis of social and item response networks with latent space models”, *Algorithms for Threat Detection (ATD), November, 2018*.
64. **S. Wang** and P. De Boeck, “Does low reliability lead to low replication rates?”, *International Meeting of Psychometric Society, July, 2018*.
65. **S. Wang**, B. Wiernik and B. Morgan, “Gender measurement bias versus trait differences in vocational interest assessment.”, *Society for Industrial and Organizational Psychology conference, April, 2017*

66. C. Nye, J. Prasad, J. Bradburn, F. Elizondo, W. Phan, R. Amrhein, S. Cho, J. Rounds, B. Wiernik, **S. Wang**, B. Morgan, C. M. Wee, E. Wetzel, D. Ispas, “New directions for vocational interest research in organizations.”, *Society for Industrial and Organizational Psychology conference*, April, 2017

Colloquiums & Symposiums

67. P. Powla, S. Stephens, T. Sweet and †**S. Wang**, “The relationship between tau levels in functionally connected cortical brain regions and a region’s tau burden.”, *2024 IADRC Fall Research Symposium*, 2024.
68. **S. Wang**, “Relationship between Changes in biomarkers and self-perceived functioning .”, *Indiana Alzheimer’s Disease Research Center*, 2024.
69. **S. Wang** and J. Edgerton, “Disrupting terrorist recruitment: Network knockouts of Islamic State recruiters.”, *OSU Psychological Studies Quantitative Colloquium*, 2021.
70. **S. Wang** and J. Edgerton, “Disrupting terrorist recruitment: Network knockouts of Islamic State recruiters.”, *OSU Political Science Studies Methodological Colloquium*, 2021.
71. **S. Wang** and P. De Boeck, “Understand reliability with the reliability paradox.”, *OSU Psychological Studies Quantitative Colloquium*, 2020.
72. **S. Wang**, S. Paul, J. Logan, and P. De Boeck, “A joint modeling framework for social network analysis and psychometrics”, *OSU Psychological Studies Quantitative Colloquium*, 2019.
73. **S. Wang** and P. De Boeck, “The role of reliability in the replication crisis.”, *OSU Psychological Studies Quantitative Colloquium*, 2018.
74. **S. Wang**, “Applications of differential item functioning analysis with item response theory.”, *Undergraduate Research Symposium*, April, 2016.

Mentoring

Postdoc Mentored

- Krishnendu Chandra, Postdoc at IUSM Biostatistics and Health Data Science 2025-

Research Assistant Mentored

- Luling Zou, PhD student at IUSM Biostatistics and Health Data Science 2025-
- Yumeng Chen, Graduate research assistant at IUSM Biostatistics and Health Data Science 2025-
- Huairui Wang, Graduate research intern at IUSM Biostatistics and Health Data Science 2025-
- Connor Cornelison, Graduate research assistant at IUSM Biostatistics and Health Data Science 2024-2026
 - Working on one first-author manuscript and published one first-author abstract, received [INGEN4DS fellowship](#)
- Theyanesh Jayaprakash, Graduate research assistant at IUSM Biostatistics and Health Data Science 2024-
 - Submitted one first-author manuscript and published one first-author abstract
- Ash Sharma, Graduate research assistant at IUSM Biostatistics and Health Data Science 2025-
- Gertrude Osei, Graduate research assistant at IUSM Biostatistics and Health Data 2025-2026
 - Submitted one first-author manuscript with me
- Anastasija Naumoski, Datawiz intern at IUSM Biostatistics and Health Data Science 2025
- Plamena Powla, PhD student at IUSM Biostatistics and Health Data Science 2024-2025

- Published one first-author abstract with me
- Yunhe Liu, Graduate research assistant at Yale Biostatistics 2023-2024
 - Published one co-author manuscript with me, went to Texas A&M University for Statistics PhD
- Yiting Wang, Graduate research assistant at Yale Biostatistics 2023-2025
 - Published two second-author manuscripts with me, went to University of Virginia for Statistics PhD
- Xinzhi Zhang, Graduate research assistant at Yale Biostatistics 2023-2025
 - Published one first-author and one co-author manuscripts with me, went to NYU for Biostatistics PhD

Service

University Service
